

Responsible Care Policy

INTEGRATED MANAGEMENT SYSTEM **(QUALITY, HEALTH, SAFETY AND ENVIRONMENT)**

Peróxidos do Brasil, a leading Brazilian company in the production of hydrogen peroxide and peracetic acid for South America, takes responsible care in the production and sale of chemical products for the domestic and international markets, having as its strategic values Innovation, Sustainability and Excellence, establishes an Integrated Management System Policy encompassing the aspects of Quality, Health, Safety and Environment, thus committing to:

1. **COMPLIANCE**: *Observe the applicable, national and international, legislation and requirements with regard to quality, health, safety and environment.*
2. **IMPACT OF THE PRODUCTS**: *Manufacture, transport and supply products whose risks to people's health and to the environment are mitigated throughout their life cycle, and which suitably satisfy clients' needs and fulfil the expected requirements.*
3. **RESPONSIBLE CARE**: *Ensure that our facilities are built, operated and maintained taking into consideration the protection of health and safety of our employees and contractors, neighbouring communities and the environment, with the ultimate aim of ensuring that nobody's physical integrity is impacted and that there is no damage to the environment or to biodiversity.*
4. **ONGOING IMPROVEMENT**: *Foster the improvement of the Integrated Management System and its global performance, listening to, engaging and working with the interested parties in order to understand and deal with their concerns and expectations, as well as cooperating with governments, communities and organisations to attain ongoing improvement.*
5. **SUSTAINABILITY**: *Seek the continuous reduction of emissions, of the generation of waste, of the consumption of energy, raw materials, water and other natural resources, in alignment with sustainable development.*
6. **LEADERSHIP**: *Encourage our suppliers, service providers and clients to adopt principles of Quality, Health, Safety and Environment that are compatible with this Policy, supporting them with regard to these subjects, when suitable.*

Curitiba, 21 March 2019
